

HOW TO DETERMINE SHIPPING CHARGES

(Residential and Commercial)

DO THE FOLLOWING:

- 1. Identify your zone. (pg 4-5)**
- 2. Identify the total weight. (pg 4-5)**
- 3. Determine the basic rate on the chart.**
- 4. THEN, Determine if you're a commercial or residential location**
- 5. If you are residential, add: \$2.20 once to the total in addition to the standard shipping chart rate below (UPS defines a "business at home" as residential. See official definition below.)**
- 6. If you are commercial, add: \$1.40 once to the total in addition to the standard shipping chart rate below (UPS defines a commercial place as a place open with an entrance to the public. See official definition below.)**
- 7. There is a nominal fee for packaging and handling of \$1.00 - \$2.00**
- 8. In summary, there are three charges:**
 - a. The basic UPS shipping charge (according to the chart below)**
 - b. The added UPS fee to residential (\$2.20) or commercial (\$1.40)**
 - c. The packaging/handling fee of \$1.00 - \$2.00 for each box.**

This map will give an idea about the number of days it will take for the shipment to arrive in your state from Birmingham, Alabama.

UPS definitions and how UPS applies charges when in question: (from page 124)	UPS defines residential/commercial as follows: (from page 146)
<p>Residential Surcharge A residential delivery is defined as delivery to a location that is a home, including a business operating out of a home, that does not have an entrance open to the public. Add \$2.20 to the appropriate rate for each Express Envelope or package going to a domestic residential destination. Add \$1.85 to the appropriate rate for each UPS Ground package going to a domestic residential destination. Add \$20.00 to the appropriate rate for each UPS Hundredweight Service® shipment going to a domestic residential destination.</p>	<p>Residential Delivery A residential delivery is defined as delivery to a location that is a home, including a business operating out of a home that does not have an entrance open to the public. If the delivery location could be construed as either residential or commercial, then the rates for residential delivery service will be applied.</p>

All the information below is taken from UPS Rates and Service Guide, updated 1/24/2007
